

SD-WAN

Advanced Routing Protocols for Business Continuity

Now your IT staff can execute a more flexible remote-access solution

Market Landscape

Growing businesses are always looking for innovative ways to scale and grow the organization. Even before the COVID pandemic, firms have been seeking to virtualize and expand their network beyond physical office space to just about anywhere in the world.

Business Driver

The rise of telecommuting and virtual meetings quickly led to security concerns. Organizations became eager to grant remote access to their internal resources securely over the internet, with the ability to connect hundreds of endpoints to their central network - including branch locations, fleet vehicles, and client devices.

STEP CG Solution

By handling the weight and headache of managing all of your business' head-end devices for you, STEP CG allows you to concentrate on end-devices. In leveraging the power and versatility of cellular connectivity, now you can enjoy the peace of mind that comes with virtually 100% uptime.

SD-WAN Benefits

Establish Network Security

Consistent UX for Remote Branches and Vehicles

All DC Applications Made Available Remotely

The SD-WAN Advantage

Our innovative solution securely grows your business with a scalable network allowing connectivity and the ability to virtualize and expand beyond physical borders with flexibility in ZTP (zero-touch-provisioning) and Cloud management. With security at the forefront, SD-WAN is a FIPS-140.2 compliant and CJIS compliant network solution.

The Winning Components

The freedom and ability to integrate 4G/LTE, MPLS

Along with Broadband internet services to increase WAN bandwidth and lower costs.

STEP CG's engineering expertise

We handle all of the complicated management, including 2-day/overnight hardware replacement.

NetCloud Manager

Provides 24/7/365 automatic monitoring & alerting.

Full and Split Tunnel Internet Connectivity

Ensure all traffic is transferred through the enterprise, or give your workers the ability to perform work functions at work and internet functions from the Internet directly.

Individual and Branch Office Support

STEP CG is always here to support your productivity and efficiency.
