

STEP CG

VPNaaS

A Network For Your Employees – No Matter Where They Are

Giving your team the best remote access solution, in and outside the office

Market Landscape

Today's businesses are always looking for innovative ways to securely grow. The pandemic exposed the difference between firms with a scalable network and those without connectivity to a central network. The ability to virtualize and expand their network beyond physical office space with flexibility in zero-touch-provisioning and cloud management is paramount.

Business Driver

With entire teams working from home, questions about which network remote employees should connect to is driving the choice for a remote access VPN. Keeping data protected when employees are on public WiFi is another driving concern.

STEP CG Solution

Our expert engineers will design, configure, and tackle the advanced routing protocols to ensure your business' continuity while empowering your staff to execute a best-in-class flexible remote access solution. STEP CG's Network and Server Monitoring services also track the pulse of your entire IT ecosystem for you.

VPNaaS Benefits for Business

Data Security

Increased Mobility & Scalability

Increased Uptime

The VPNaaS Advantage

With security at the forefront, VPNaaS is a FIPS-140.2 compliant and CJIS compliant network solution you can rely on. By providing a high availability network with virtually 100% uptime through the power and versatility of cellular connectivity, STEP CG's VPNaaS solution will keep your business growing.

The Winning Components of VPNaaS

The freedom and ability to integrate 4G/LTE, MPLS

Along with Broadband Internet services to increase WAN bandwidth and lower costs.

Full and Split Tunnel Internet Connectivity

Ensure all traffic is transferred through the enterprise, or give your workers the ability to perform work functions at work and Internet functions from the Internet directly

STEP CG's engineering expertise

We handle all of the complicated management, including 2-day/overnight hardware replacement.

Individual & Branch Office Support

STEP CG is always here to support your productivity and efficiency

NetCloud Manager

Provides 24/7/365 Automatic Monitoring & Alerting
